

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LAW DEPARTMENT.

Report for the Year ending December 31, 1897.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, December 31, 1897.

Hon. WILLIAM L. STRONG, Mayor :

SIR—I have the honor to transmit herewith the annual report of the Law Department for the year ending December 31, 1897. It conforms with the requirements heretofore prescribed and sets forth the operations and action of the Department during the past twelve months and the condition of the City's law business at the close of the year 1897.

The volume of business of the Law Department for that year reached proportions never before equaled, as will appear by a comparison of the reports of previous years with the following table of—

STATISTICS.

The statistics of the business of the office of the Counsel to the Corporation (exclusive of the business transacted in the different bureaus and offices of the Law Department, which make their own reports) are contained in eight schedules. The following summary of the schedules will indicate the volume of the work for the year :

OPINIONS.

9,570 pages of press copying were required for the opinions and other correspondence of the Department during the year.

There were received from the Finance Department 845 requests for the examination of claimants, in 354 of which oral examinations, under oath, were conducted. The circumstance that only 354 claimants were examined, when 845 requests for examination were received, is explained by the fact that a large number of the claims filed were in mechanics' liens cases and in assessment matters, where all the facts being already within the knowledge of the City's officers, examinations were not necessary. In addition to these claims in the ordinary suits against the City there were 855 claims filed for rebates of excise license fees, which were examined into and filed.

CONTRACTS.

Contracts were examined or drafted and approved as to form, on request, as indicated below :

The Office of the Attorney for the Collection of Arrears of Personal Taxes.

1 Attorney.	1 Clerk.	2 Law Clerks.
	(4 persons).	

The Office of the Special Counsel in Charge of Proceedings Relating to the Water Supply.

The Counsel employs assistants and clerks as occasion may require, and in connection with other duties not relating to the Water Supply.

The Attorney to the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards.

1 Attorney.	1 Clerk.	(2 persons).
Making a total of 115 persons in the Law Department.		

MATTER SPECIALLY MENTIONED.

In the report of the Law Department for the year 1896 attention was particularly called to the acquisition of title to real estate, chiefly through the exercise of the right of eminent domain, for various public purposes. For the year 1897 the statement may be repeated that "the work that was accomplished in this direction has been far in excess of anything hitherto done in the history of the city, and lying, as much of it does, at the foundation of city improvements, and being a necessary preliminary thereto, its important and far-reaching effect can hardly be exaggerated."

I will follow generally the arrangement of the subject made in that ----- continuing the history of what was then uncompleted and referring to the new proceedi

The facts may be stated under the following heads :

Ordinary Streets, Roads and Avenues.

Extraordinary Streets, Boulevards and Public Places.

Parks.

School-house Sites.

Court-house Sites.

Armory site.

Bridge approaches.

Sites for the use of the Fire and Police Departments.

Hall of Records.

Dock condemnation proceedings.

Real estate required for use in connection with the water supply.

Ordinary Streets, Roads and Avenues.

The proceedings to acquire lands for streets, roads and avenues are nearly all in charge of the Bureau of Street Opening. There are now more proceedings of this character pending before Commissioners than ever before in the history of the city, and more reports were moved for confirmation during the year 1897 than during any previous year.

A detailed account of the work of this bureau is printed in the body of the report, and only a few salient points will be mentioned here.

Seventy reports of Commissioners of Estimate and Assessment were confirmed during the year, which is twenty-five more than during the previous year. The amount of awards in proceedings confirmed was \$3,922,062.05, and more than three times the amount of the previous year.

The amount of assessments confirmed in 1897 was \$2,286,177.54, which is more than double the amount of the previous year.

In addition to the streets, title to which was acquired through condemnation proceedings, there were cessions of land for street purposes by the property-owners in thirty separate cases, so that it may be said that title to a hundred new streets was acquired.

The number of lineal feet thus acquired is 160,616.95, or almost exactly 30.42 miles.

It will be observed that the taxed costs in these proceedings amounted to \$181,700.12—that is to say, about $4\frac{1}{2}$ per cent. of the amount of the awards.

Thus, it costs less to open streets by condemnation proceedings, and to assess the cost thereof, than would be the fees of an assignee in administering an estate equal in amount to the awards made. It is to be remembered, also, that the salaries of the office force and a part of the rent of the rooms occupied by the Bureau, as well as of the general expense of running it, are included in the taxed costs.

Attention was called in the report for 1896 to an important question, then pending before the Court of Appeals, as to whether, where streets north of One Hundred and Fifty-fifth street on Manhattan Island are more than a mile in length, the whole or only one-half of the cost of the opening is to be borne by the property-owners. Those cases, involving three important avenues, to wit, Audubon avenue, Wadsworth avenue and Edgecombe road, have been disposed of, the appeals having been dismissed by the Court of Appeals, and the City has been successful in its claim that the whole of the cost of opening such streets must be assessed upon the property-owners, and not one-half only, as was claimed by opposing counsel under the alleged authority of chapter 565 of the Laws of 1865.

Attention is called to the following table :

	1897.	1896.	1895.
Commissions appointed.....	167	90	72
Proceedings pending at the end of the year.....	243	138	96
Number of meetings of commissions.....	5,311	3,343	2,785
Folios of testimony taken.....	81,134	53,779	37,965
Opinions furnished.....	372	159	58
Lineal feet of street acquired by cession.....	23,164.11	11,250	3,470

The pay-roll for the Bureau in the month of December, 1896, called for \$4,094.84; for December, 1897, \$5,584.11.

The average time required for the completion of a proceeding was one year, six months and twenty-two days. Much of this time was consumed in waiting for maps. The average time taken for that purpose was six months and fourteen days. The shortest time in which a proceeding was completed was five months and ten days.

Extraordinary Streets, Boulevards and Public Places.

THE ELM STREET WIDENING.

The Commissioners of Estimate and Assessment in this important proceeding were appointed on the 27th of February, 1895. The litigation was pressed with unusual energy and diligence during the year 1896 and the year 1897, until on the 28th day of April, 1897, the Commissioners made an informal report of the amount of awards which they had determined upon, to wit, \$5,401,377.

The great labor involved in preparing the assessment maps caused some delay, and it was finally determined that a motion should be made to confirm the awards separate and apart from the assessment. A motion for such confirmation was made before Mr. Justice Smyth in November, 1897, and was under consideration by him at the end of the year.

It may be well to state that this improvement involves the widening and straightening of Elm street, from Worth to Spring street, so as to make it of the uniform width of eighty feet; also the cutting through of the blocks from Worth to Duane street; the taking of property on the westerly side of Centre street, between Duane and Reade streets; the taking of the whole block bounded by Centre, Reade and Chambers streets; the widening of Marion street, from Spring street to its northerly terminus, and the cutting through of the blocks from Prince to Great Jones street, so that at the latter place the westerly line of the proposed Elm street will be a continuation of the westerly line of Lafayette place.

It was provided by chapter 641 of the Laws of 1897 that title should vest upon the 1st of May of that year, and that interest should run at the legal rate upon the awards from that date to the date of payment.

The buildings on the property acquired for the opening, widening and extending of this street, were sold at public auction, and most of them had been torn down at the end of the year.

GRAND BOULEVARD OR CONCOURSE, FROM ONE HUNDRED AND SIXTY-FIRST STREET TO MOSHOLU PARKWAY.

This proceeding was begun in 1895, under authority of chapter 130 of the Laws of that year. The boulevard extends a distance of over four miles, with a width of 180 feet, following the ridge easterly of Jerome avenue.

For the purpose of acquiring title it was divided into four sections, and a separate proceedings instituted as to each section. The reports of the commissions on three of these sections were confirmed during the year 1897, the amounts of awards being as indicated below.

SECTION.	DATE OF CONFIRMATION.	AWARD.
First.	February 20, 1897.....	\$576,937 96
Second.....	May 4, 1897.....	688,444 47
Third.....	October 28, 1897.....	264,947 00

These three sections taken together extend from One Hundred and Sixty-first to One Hundred and Eighty-fourth street. The fourth sections extends from One Hundred and Eighty-fourth street north to a line which is about 200 feet south of One Hundred and Ninety-eighth street.

HARLEM SPEEDWAY.

This road or avenue extends from One Hundred and Fifty-fifth to Dyckman street, a distance of about two and a half miles along or near the westerly bank of the Harlem river. The pro-

ceeding for acquiring title thereto is under chapter 102 of the Laws of 1893. Evidence on the part of property-owners was presented to the effect that the property taken was of the value of \$3,000,000. The evidence given by the City's experts placed the value at a little less than \$200,000. The Commissioners awarded \$255,576.50, and the Court, after hearing the objections, fixed the damages at \$275,504.22. The order of confirmation was entered July 30, 1897.

ADDITION TO THE SPEEDWAY.

This addition was provided for by chapter 894 of the Laws of 1895, which allows the acquisition of a tract of land on the westerly side of the Speedway proper, extending from One Hundred and Fifty-fifth street northerly to the Highbridge Park, and from the Speedway westerly to the line of the Aqueduct. Title vested in the City on the 19th day of January, 1896, upon the filing of the oaths of the Commissioners. The awards are to bear interest at 6 per cent. from that date. A separate and partial report has been filed as to Parcels Nos. 4, 5, 6 and 6½, awarding \$304,512.

EXTERIOR STREET, FROM SIXTY-FOURTH TO EIGHTY-FIFTH STREET, ON THE EAST RIVER.

The report in this proceeding, involving, as it did, peculiar and important questions of law as to alleged riparian rights of owners abutting on the East river, was confirmed on the 14th of July, 1897, and the contention of the City was sustained. The amount of the awards was \$497,458, which, with the taxed costs, made the assessment \$517,738.28.

Parks.

ST. NICHOLAS PARK.

This park is situated between One Hundred and Thirtieth and One Hundred and Forty-first streets, St. Nicholas, Convent and Amsterdam avenues. The proceeding to acquire title to the land was begun in July, 1894, and is still pending before the Commissioners of Appraisal.

During the year 1897 about 1,600 pages of testimony have been taken relative to the value of the property. The testimony as to a considerable portion of the land embraced within the park area has been concluded both on behalf of the property-owners and the City, and the matter is now in the hands of the Commissioners for their determination and report.

COLONIAL PARK (SO-CALLED).

This park lies between One Hundred and Forty-fifth and One Hundred and Fifty-fifth streets, Bradhurst and Edgecombe avenues, and consists of a sidehill and a narrow level place on the east resembling, in its main features, Morningside Park. About 1,200 pages of testimony were taken during the year 1897, and the testimony was closed in December, 1897. The matter is now in the hands of the Commissioners for their determination and report.

RIVERSIDE PARK EXTENSION.

This park was laid out and designated by chapter 152 of the Laws of 1894, and includes land between Seventy-second and One Hundred and Twenty-ninth street westerly of the roadway of the New York Central and Hudson River Railroad Company. The proceeding was begun in 1894, and during the year 1897 about 1,000 pages of testimony were taken. The case, both on the part of the property-owners and of the City, has been concluded as to a considerable part of the property sought to be acquired.

LITTLE ITALY PARK (SO-CALLED).

This park was laid out and designated by chapter 746 of the Laws of 1894, and embraces all the land on the East river between One Hundred and Eleventh and One Hundred and Fourteenth streets east of First avenue. About 1,400 pages of testimony were taken during the year 1897, the testimony as to the greater part of the land has been concluded and two separate reports have been made by the Commissioners, the aggregate amount of the awards being \$1,701,223, each of which has been confirmed, and the City has become the owner of the property included in each of the said reports.

part not yet reported upon is a small portion of the entire area, and a report may be to that early in the year 1898.

FORT GEORGE PARK.

This park was laid out under authority of chapter 876 of the Laws of 1895. The Commissioners were appointed on the 17th of April, 1896, and during the year 1897 about 1,600 pages of testimony were taken. Proof of title has been completed, and the case on behalf of the property-owners, as to value, is about three-fourths completed.

ELEVENTH WARD PARK.

Early in the year 1896 the Board of Street Opening and Improvement designated lands to be laid out as a park on the east side of the city, comprising the two tenement blocks bounded by Stanton, Houston, Pitt, Willett and Cherry streets. Commissioners of Estimate were appointed on the 10th of July, 1896, and in the year 1897 about 1,800 pages of testimony were taken. Proof as to title has been completed, and the proof as to value has been more than half completed.

WEST SIDE PARK.

The Board of Street Opening and Improvement also in the year 1896 laid out and established a park on the west side of the city, bounded by Ninth and Tenth avenues, Twenty-seventh and Twenty-eighth streets. Commissioners were appointed in that year, and during the year 1897 over 800 pages of testimony were taken. Proof of title as to all the property involved has been concluded, and considerable testimony on behalf of the property-owners as to value has been taken.

DIVISION STREET PARK (SO-CALLED).

This park was laid out by the Board of Street Opening and Improvement, under chapter 320 of the Laws of 1887, and chapter 293 of the Laws of 1895, and Commissioners of Estimate were appointed on February 5, 1897.

The land involved consists of three tenement-house blocks, bounded by Hester, Essex, Division, Norfolk, Suffolk, Canal, Rutgers and Jefferson streets and East Broadway.

About 1,000 pages of testimony were taken during the year 1897. Proof as to title to all the property embraced within the park area has been concluded, and considerable testimony has been taken on behalf of property-owners as to the value of property.

SEVENTEENTH WARD PARK OR PLAYGROUND.

On the 10th of December, 1897, the Board of Street Opening and Improvement, under the provisions of chapter 420 of the Laws of 1887, chapter 223 of the Laws of 1895, chapter 676 of the Laws of 1897, selected, located and laid out this public park or playground, comprising nearly all of the tenement-house block bounded by Houston, Essex, Norfolk and Stanton streets, and requested the Counsel to the Corporation to acquire title to it by condemnation proceedings. The notice of application to the Court for the appointment of Commissioners of Estimate on the 20th of January, 1898, is now being advertised.

TWENTY-SECOND WARD PARK.

On December 17, 1897, the Board of Street Opening and Improvement, pursuant to chapter 320 of the Laws of 1887, selected, located and laid out a public park, comprising the two blocks bounded by Eleventh and Twelfth avenues, Fifty-second, Fifty-third and Fifty-fourth streets, and requested the Counsel to the Corporation to institute a proceeding for the purpose of acquiring title to this land.

A notice of application to the Court for the appointment of Commissioners of Estimate on the 21st of January, 1898, is now being published.

School-house Sites.

The statements and tabulations below will show in detail the extent and importance of this branch of the Department's work, as well as the skill, fidelity and success with which it has been conducted.

44 separate and distinct school sites have been acquired during the year 1897, and title thereto is now vested in The City of New York; 36 of these by condemnation proceedings and 8 by purchase.

The record for 1896 was 32; 26 by condemnation proceedings and 6 by purchase.
The awards in the 36 proceedings amounted to \$2,396,966.

The sums paid for the 8 sites acquired by private purchase amounted to \$354,000, making a total of \$2,750,966, which is the amount expended or to be expended for property acquired for school purposes during the year 1897.

All of the proceedings mentioned as pending in the report for 1896 have been concluded, except one, as to which the Board of Education has requested that no testimony be taken.

The following is a Table Relating to School Sites which were Acquired through Condemnation Proceedings in the Year 1897.

Armory Site.

The condemnation of lands for sites upon which to erect armories for the National Guard is authorized by chapter 559 of the Laws of 1893, and under that act the procedure relative to the acquisition of title is that provided for by chapter 23 of the Code of Civil Procedure.

During the year 1897 a condemnation proceeding was instituted for the purpose of acquiring title to seven lots of land on the southerly side of Sixty-sixth street, between Columbus avenue and Central Park, West, as a site upon which to erect an armory for the use of the First Battery of the National Guard.

Commissioners of Appraisal were appointed in said proceedings, and testimony as to the value of the property is now being taken before them.

Bridge Approaches.

THIRD AVENUE BRIDGE.

The proceeding for the acquisition of title to lands on both sides of the Harlem river, for the approaches to the New Third Avenue Drawbridge, mentioned in the report for 1896, has been concluded.

About 800 pages of testimony were taken during the year 1897.

The Commissioners made five separate reports covering all the property embraced in the proceeding, all of which reports have been confirmed by the Court.

During the year 1897 a proceeding was instituted for the purpose of acquiring title to lands for the South Third avenue approach to said bridge on the easterly side of Third avenue, extending from the north side of One Hundred and Twenty-eighth street to the Harlem river.

Commissioners of Estimate have been appointed in the proceeding. Their oaths of office as such Commissioners were filed in the office of the Clerk of the County of New York on November 12, 1897, and under the provisions of the Amendatory Act, chapter 716 of the Laws of 1896, the title to the lands in question vested in the City on the filing of said oaths.

In October, 1897, the Board of Estimate and Apportionment adopted a resolution providing for the widening of East One Hundred and Thirtieth street and the southwest or Lexington avenue approach to said bridge, and consenting that the title to the lands necessary for such improvement be acquired by the Commissioner of Public Works for and in behalf of the City.

A notice of application to the Court for the appointment of Commissioners of Estimate in the matter of acquiring title to said lands is now being advertised for the 20th day of January, 1898.

NEW EAST RIVER BRIDGE, FROM NEAR THE FOOT OF GRAND STREET.

Although the Law Department has no responsibility for this proceeding the following is stated :

The laws relating thereto are Laws of 1895, chapter 789 ; Laws of 1896, chapters 612 and 734, and Laws of 1897, chapters 421 and 422.

The Commissions, I am informed, have employed their own counsel.

Three proceedings have been begun for the condemnation of certain property ; one as to property in The City of New York, and two as to property in Brooklyn.

Commissioners were appointed in each proceeding and testimony is being taken in each by them.

The Bridge Commission, I am also informed, under authority vested in it by the acts, has purchased during the year several pieces of property both in New York and Brooklyn.

WILLIS AVENUE BRIDGE APPROACHES.

The proceedings for the acquisition of lands between One Hundred and Thirty-second street and Willis avenue and One Hundred and Twenty-fifth street and First avenue, for approaches to the proposed bridge across the Harlem river at the point indicated have progressed during the year. The final maps were received on July 29, 1897, and the final report of the Commissioners was filed August 18, 1897.

Sites for the use of the Fire and Police Departments.

FIRE DEPARTMENT.

During the year 1897 a condemnation proceeding was instituted and concluded for the purpose of acquiring title to two lots of land known as Nos. 42 and 44 Great Jones street as a site for the use of the Fire Department. The property-owners claimed \$63,390, as the value of the property ; the City admitted it to be worth \$54,680, and the award of the Commissioners was

A site was also purchased at private sale for the use of the Fire Department known as No. 119 Maiden lane, the purchase price being \$47,400.

The pending condemnation proceedings for sites for use of the Fire Department are as follows :

1. Seventy-fifth and Seventy-sixth streets, between the Boulevard and Amsterdam avenue. Area, 2 lots. Proof as to title has been completed.
2. Broome street, No. 363. Area, 1 lot. Proof as to title has been completed, and some of the proof as to value has been taken on behalf of the claimants.
3. Main street, between Arnow place and Eastchester road. Area, 2 lots. Proof as to title has been completed.
4. Scofield avenue, east of Main street. Area, 2 lots. Proof as to title has been completed.
5. No. 7 Thames street. Area, 1 lot. The order appointing Commissioners has been filed in County Clerk's office.
6. Nos. 113 and 115 Thirty-third street. Area, 2 lots. The order appointing Commissioners has been filed in County Clerk's office.

POLICE DEPARTMENT.

During the year 1897 a site was purchased at private sale for the use of the Police Department, consisting of 4 lots on the east side of Sedgwick avenue, north of Wolf street, the purchase price paid being \$14,000.

Proceedings have been also instituted to acquire a site for the use of this Department, the premises being known as No. 135 West Thirtieth street, and Commissioners have been appointed.

Hall of Records.

In April, 1897, the Board of Estimate and Apportionment, under the provisions of chapter 59 of the Laws of 1897, selected, as a site upon which to erect a building for the use and accommodation of the Register and other departments of the City Government, certain lands on Chambers, Centre and Reade streets.

Commissioners of Appraisal were appointed in May, 1897, in a proceeding instituted for the purpose of acquiring title to said lands. Certain property-owners made a motion for the removal of two of the Commissioners, which was denied by the Special Term. The property-owners in question thereupon appealed to the Appellate Division, which affirmed the order of the Special Term denying their motion. They thereupon appealed to the Court of Appeals, which court dismissed their appeal.

The oaths of the Commissioners of Appraisal were filed in the County Clerk's office on May 18, 1897, and under the provisions of said act title to the site in question vested in the City four months after the filing of said oaths, to wit : September 18, 1897.

Testimony is now being taken in the proceeding.

Dock Condemnation Proceedings.

The proceedings rendered necessary in order to carry out the plan of improvement instituted by the Dock Department to acquire property along the water front by the exercise of the right of eminent domain have been vigorously prosecuted during the year.

268 meetings have been held in the proceedings mentioned below.

In 4 proceedings reports were confirmed during the year, and the amounts of the awards were as follows :

	Awards.

Real Estate Required for Use in Connection with the Water Supply.

The litigation necessary for the acquisition of lands and easements required in order to secure and protect the water supply, particularly in the Counties of Westchester and Putnam, has proceeded during the year 1897.

The important proceeding which, however, relates to land in The City of New York, known as the Jerome Park Reservoir Proceeding, was concluded, the Commissioners of Appraisal having made their final reports, designated as the Second and Third Separate Reports.

The Second Report included 64 separate claims, and the amount of the awards was \$843,063. The amount claimed was \$1,348,295—a saving of \$505,232.

The Third Separate Report involved one claim for damages to contiguous real estate caused by the construction of the reservoir.

This claim was disallowed, the Supreme Court holding that the Commissioners of Appraisal had no power to hear and determine the claim in question and make an award therefor.

The proceeding known as the Fourth Supplementary Cornell Dam Proceeding was closed during the year 1897.

The report covered twenty-one parcels.

The amount claimed and which there was evidence to sustain was	\$232,880 78
The amount of the award was	113,855 12

Making a saving in favor of the City of	\$119,025 66
---	--------------

In the Mount Kisco proceeding, the Second Separate Report was made covering forty parcels.

The amount claimed and which there was evidence to sustain was	\$424,319 04
The award was	123,804 24

Making a saving to the City of	\$300,514 80
--------------------------------------	--------------

In the Carmel or Lake Gleneida proceeding, the Second Separate Report was made.

The amount claimed and which there was evidence to sustain was	\$284,482 69
The amount awarded being	177,726 00

Making a saving in favor of the City of	\$106,756 69
---	--------------

In the Patterson and Towners proceeding, the evidence was closed and submitted to the Commissioners, but no report has yet been made.

A proceeding known as the Lake Mahopac proceeding, embracing seventy-two parcels of land in the Town of Carmel, was instituted and evidence is being taken on behalf of the claimants.

A proceeding was also instituted under chapter 674 of the Laws of 1896 for the purpose of discontinuing all proceedings in relation to certain parcels that were conditioned in various pending proceedings under chapter 189 of the Laws of 1893.

This proceeding involves about sixty-seven parcels.

The Commissioners were appointed, and they are now engaged in taking evidence of damages suffered while the parcels were under conditions.

At the beginning of the year there were 616 claims in proceedings of this class against The City of New York in process of examination and trial.

The total aggregate of such claims was..... \$6,710,731 00

In this, however, is not included about 250 separate parcels acquired by the City, for which no claims have yet been filed.

It is estimated that these claims will aggregate over \$1,000,000.

In addition to the foregoing proceedings the assessment and taxation of about 8,000 acres of the City's property owned in the Counties of Westchester and Putnam for use in connection with the City's water supply is the subject of constant examination, contests and litigation.

The following proceedings, as popularly known, were pending at the end of the year :

Bronx river, Rye Pond and Wampus.

Byram.

Brewster.

Brewster, First Supplemental.

Carmel or Lake Gleneida.

Cornell Dam, Fourth Supplemental.

Contract Litigation.

A large amount of litigation was prosecuted during the year, growing out of contracts for various public works.

Twenty of such cases, brought by contractors, were actually tried ; one, three times.

Of those tried, three were carried up to, and decided by, the Appellate Division, before which were argued nine different cases of this class.

In several instances claims were settled after an informal reference to take testimony, the Law Department being represented upon such hearings.

The total amount demanded by the plaintiffs in these contract cases was.....	\$199,681 58
The total amount recovered, excluding interest and costs, was.....	55,986 36
Deducting the amount admitted to be due to the plaintiffs, to wit.....	6,654 20
There is a balance remaining, which may be called the net recovery, of	49,332 16

Two of these cases, however, were tried against the express advice of the Law Department and wholly upon the urgent request of the Comptroller.

The amount involved in these two cases was..... \$17,989 81

The difference between the amount thus remaining of.....	\$31,342 35
And the amount recovered by the City on counterclaims in contract cases of.....	23,273 65
Constitutes a balance of.....	<u>8,068 70</u>

So that there was a net recovery against the City of approximately 4 per cent. of the amount claimed.

Among the most important contract suits disposed of during the year was the case of William E. Dean vs. The Mayor, etc.

The contract involved was for the Construction of Dyckman street from the Harlem river to the Hudson river.

After the contractor had been paid the sum of \$147,979.66, a dispute arose between him and the representatives of the City as to the latter's liability to pay an instalment of \$12,343.76.

It was claimed on behalf of the City that the certificate of completion of the Commissioner of Public Works had been obtained by mistake, and that the contractor had not done the amount of work for which he claimed compensation.

Suit was accordingly brought for the sum of \$13,043.76 claimed to be due under the contract, together with \$25,000 as damages. The City denied its liability and set up a counterclaim to the effect that the contractor, through mistake, had obtained \$26,514.99 more than he was entitled to and accordingly demanded judgment for that sum against him. A long trial before a jury followed, resulting in a verdict for the City for \$21,694 and judgment in its favor for the sum of \$21,998.33, was subsequently entered.

Important Cases before the United States Supreme Court and the Court of Appeals.

In April, 1897, I argued before the United States Supreme Court the important case of Robert W. Workman vs. The Mayor, etc.

This case was a libel in admiralty to obtain damages against The City of New York for injuries caused by the "New Yorker," a fireboat under control of the Fire Department of The City of New York, which, when coming up the East river and attempting to enter the slip for the purpose of extinguishing a fire, collided with the barkentine "Linda Park."

It was held by the United States Circuit Court of Appeals that The City of New York was not responsible for the negligence of the members of its Fire Department, committed while attempting to extinguish a fire within the corporation limits, and that this rule was not affected by the fact that the suit was in admiralty instead of at common law.

The case was considered so important, both on account of the principle involved and the fact that it was the first of its class in which the City's liability could be tested in the United States Courts, that an appeal was taken to the Supreme Court of the United States. That court had not decided the case at the end of the year.

In the report for the year 1896, reference was made to the case of Henry W. Sage vs. The Mayor, etc., which was decided in that year by the Appellate Division.

The case is an exceedingly important one, involving directly title to the tideway, that is, the land between high and low water in the Harlem river, between Ninety-fourth and Ninety-fifth streets. It indirectly involved the title to the tideway elsewhere on Manhattan Island.

The Court of Appeals, in the year 1897, affirmed the decision of the Court below, and sustained fully the position of the City in claiming absolute ownership of the tideway around Manhattan Island.

The enormous value of this land is conceded, and is placed by experts in the neighborhood of \$45,000,000.

Another important case decided by the Court of Appeals in the year 1897 was that of the Sun Printing and Publishing Company vs. The Mayor, etc.

In this case the Rapid Transit Acts of 1894 and 1895, authorizing cities of over a million of inhabitants to construct railroads therein, which shall be deemed public highways, at their own expense, if so determined by a majority vote of the electors, and to issue bonds in payment thereof, were held not to be in violation of the constitution.

The broad principle was established as the law of this State, that railroads are highways, and as such may be properly deemed to be for a municipal purpose, when constructed by a municipality, and, therefore, indebtedness incurred for the purpose of building such roads, is incurred for a "city purpose," within the meaning of the constitution.

The case of Franklin P. Eastman vs. The Mayor, etc., may also be alluded to as one of the important decisions rendered by the Court of Appeals during the year 1897.

The questions involved were of a technical character and relate to wharf and bulkhead leases and rights therein as between the City and its lessees.

Without going into the questions at length, it will be sufficient to state that the contention of the City was sustained by the Court of Appeals and several mooted questions answered.

Many other matters might be referred to, but I have contented myself with mentioning such as seemed of more general interest. I will allude to only one or two more.

Much time and attention, as has been stated in previous reports, was required by, and given both by myself and by my assistants, to the bills that were introduced into the Legislature, a large number of which became laws, the time of one assistant being almost entirely occupied by such matters while the Legislature was in session.

The most important of these measures was the Greater New York Charter, known as chapter 378 of the Laws of 1897, which was adopted on May 4, 1897, and is to go into operation on the first of January, 1898.

It is proper to add that much of the Charter was reviewed by myself and members of the Law Department, particularly as to technical matters, and numerous changes were recommended as the result of this review, which in every instance met with the approval of the Commissioners, and subsequently were incorporated into the Charter.

Vast as the interests represented by the Law Department have already become from comparatively small beginnings, they are evidently destined to continue to increase greatly in the future under the new regime about to be inaugurated.

In concluding this report, which is the last of the series which began with the year 1885 and ends the official reports of the Law Department of the present City of New York, I take pleasure in again expressing, as I have done on other occasions, my cordial appreciation of the faithful services of the department staff, without whose endeavors and assistance the results obtained would have been impossible.

FRANCIS M. SCOTT, Counsel to the Corporation.

Motions to fill vacancies in Commissions.....	3
---	---

The usual summary for the quarter and year, and also a comparison by years of the work of the Bureau is annexed to the report:

There are now pending in the Bureau about 30 proceedings in which application may shortly be made for the appointment of commissioners, and about 243 proceedings in which commissions have been appointed. In the case of about 90 of these practically nothing has been done, as a draft damage map has not yet been received.

Sixty-one proceedings are still in the first stages of progress, taking testimony prior to the making up of the preliminary report. 35 others are awaiting final maps, and in the case of about 30 others meetings are being held for the purpose of completing the work.

On December 31, 1897, six proceedings had been moved for confirmation, in which decision had not been rendered, involving awards amounting to \$171,115.35, assessments amounting to \$184,076.24, and taxed costs amounting to \$12,960.89. About thirty and one-half miles of streets have been acquired, which is more than double that of any previous year, of which more than twenty-six miles were acquired by condemnation proceedings and the remainder by cessions.

Seventy reports were confirmed, twenty-five more than last year. The awards in the proceedings confirmed are more than three times those of last year, and the taxed costs are only about four and one-half per cent. of the amount of the awards. Thus it costs less to open streets by condemnation proceedings and to assess the costs than would be the fees of an assignee in administering an estate equal in amount to the awards made. Of course the fixing of an award for each parcel acquired involves in most cases the appraisal of a much larger parcel, only part of which is to be acquired in the proceeding. If the taxed costs are considered with relation to the number of city lots acquired, the expenses amount to \$45.69 per lot; if, with reference to the lots acquired and assessed, they amount to but \$3.65 per lot; if with reference to the parcels acquired, irrespective of lots assessed, they amount to \$92.84 per parcel.

It is to be noticed that during the past year the commissioners' fees have been nearly double what they were prior to March, 1896, the Legislature having raised them at that time from six dollars to ten dollars per meeting. Notwithstanding this increase and the fact that a considerable part of the rent of the Bureau is now charged to the proceedings, which was never done prior to the time that we moved into this building, and even then only to a limited extent until the beginning of 1897, the percentage of taxed costs to awards remains about the same, and far below expense of condemnation proceedings in any other branch of the city government.

An increase in the force of the Bureau is very much to be desired. That will necessitate the office space. More meetings are held daily than should be held

BUREAU OF STREET OPENINGS—(Continued).

our present office room, much to the embarrassment of the commissioners and with detriment to the efficiency and quality of the work. Delay caused by insufficient office room and inadequate force was felt a little in the Spring, but very much during the last four months. Two more hearing rooms, the expense of which could be charged to the proceedings, would increase the efficiency of the Bureau. This would save money to the City, and interest is running at six per cent. on the amount of all awards to be ascertained in proceedings, in which title has already vested in the City. As it has been the policy of the City to vest title in all street proceedings at the earliest possible date, it may be said that upon awards to be found in all the proceedings in the office and interest charge is running. The element of time is also important to the property-owners, for a pending proceeding involving an assessment damages the marketable character of property.

We take pleasure in calling your attention to the increase in the work and efficiency of the Bureau indicated by the summary showing a comparison for the three years last past.

Last year we reported a vast increase of proceedings initiated over the year before, but this year shows an even more marked increase. One hundred and sixty-seven commissions have been appointed as against ninety-five in 1896 and seventy-two in 1895. Two hundred and forty-three proceedings in which commissioners have been appointed are now pending in the Bureau, as against one hundred and forty-five in 1896, an increase of ninety-eight. But the increase in the number of pending proceedings does not adequately represent the increased work of the Bureau. This is understood better by comparing the number of meetings of commissions, the number of folios of testimony taken, the number of motions made and the number of opinions written. The testimony taken has increased from 53,000 folios to 81,000 folios; the number of meetings from 3,342 to 5,311; the motions made from 892 to 1,418, and the opinions written from 159 to 372. The pay-roll amounted to \$4,094 84 for the month of December, 1896, and amounted to \$5,584.11 for the month of December, 1897, an increase of 36 per cent. The meetings held in December, 1896, were 411, and in December, 1897, 658, an increase of more than 60 per cent.

Another cause of delay, very aggravating to property-owners results from the long period which it takes to obtain maps. The average time which was required for the confirmation of the proceedings, confirmed this year, was one year six months and twenty-two days, of which the average time consumed in waiting for maps was six months and eighteen days. In one proceeding we waited for maps nearly four years. The shortest time within which a proceeding was confirmed was five months and ten days, in which case we, ourselves, made the final maps in the Bureau.

We take this opportunity to testify to the faithfulness and zeal with which the office force has uniformly performed its duties during the past year.

All of which is respectfully submitted,

HENRY DE FOREST BALDWIN,	} Assistants in Charge of the Bureau of Street Openings.

Office of Attorney for Collection of Arrears of Personal Taxes.

NEW YORK, December 31, 1897.

Hon. FRANCIS M. SCOTT, Counsel to the Corporation :

SIR—I beg to submit herewith my report for the year 1897 :

Amount collected for taxes and interest.....	\$47,735 10
Amount of costs collected.....	217 89
Interest earned on bank deposits.....	34 67
	<u>\$47,987 72</u>

The Receiver of Taxes remitted to this office during the year the names of 7,305 delinquents, of which 4,125 were lists returned "Not Found." Of the remainder (3,180), together with 791 undisposed of last year, investigation has been made and action taken concerning 2,646.

After the enactment of chapter 766 of the Laws of 1897, abolishing the remedy by fine and imprisonment for non-payment of personal tax, collections could only be made in this office by action. The main work of the office since the passage of the above act has been in investigating claims returned, and where there has appeared a reasonable chance of collecting the amount due, commencing actions. When, after an action had been commenced, it appeared that nothing could be collected upon a judgment, in many cases actions have been discontinued by consent, but always without prejudice to the bringing of a suit later in case it may be deemed advisable. While actions on behalf of the City for the collection of these claims may prove sufficiently effective to collect unpaid taxes, nevertheless much more time is required than by the summary proceedings under the former practice, and the collections in this office have been temporarily retarded by the change of the routine of business.

Very respectfully, yours,

R. G. MONROE, Attorney.

Office of the Special Counsel in Charge of Proceedings Relating
to the Water Supply.

DECEMBER 31, 1897.

Hon. FRANCIS M. SCOTT, Counsel to the Corporation :

DEAR SIR—Pursuant to your request I would respectfully advise you that the following proceedings have been instituted for the purpose of the acquisition of lands for reservoir purposes and for the sanitary protection of the water supply of the City of New York :

Byram.
Bronx river, Rye Pond and Wampus.
Mount Kisco.
Sixth Supplemental, Cornell Dam.
Seventh Supplemental, Cornell Dam.
Eighth Supplemental, Cornell Dam.
Muscot.
Patterson and Towners.
Gleneida.
Farmers Mills.
Brewster.
Reservoir "I."
Middle and West Branch Croton.
First Supplemental, Brewster.
Lake Mahopac.
Jerome Park.
Third Supplemental Proceeding, Reservoir "D."
Fourth Supplemental Proceeding, Reservoir "D."

During the year 1897 the Commissioners of Appraisal, matter of Jerome Park Reservoir, made their two final reports designated as the Second and Third Separate Reports. The second report included sixty-four separate claims. The Third Separate Report included a claim filed for damages to contiguous real estate, caused by the construction of the reservoir.

In the Second Separate Report the sum of \$369,978 was saved the City.

In the Third Separate Report the position assumed by the City, that the Commissioners of Appraisal had no power to hear and determine the claim in question and make an award therefor was held correct and was affirmed by the Special Term.

The proceeding known as the Fourth Supplemental Cornell Dam Proceeding was closed during the year 1897. The report covering twenty-one parcels, wherein the amount claimed and proven was \$232,880.78. The amount awarded \$113,855.12, making a saving in favor of the City of \$119,025.66.

In the matter of Mount Kisco Second Separate Report of Commissioners of Appraisal covers forty parcels, amount claimed \$424,319.04, the award was \$123,804.24. Saving to the City, \$310,514.80.

Carmel or Lake Gleneida, Second Separate Report. Amount claimed, \$284,482.69 ; amount awarded, \$177,726. Saving, \$106,756.69.

During the year 1897 a proceeding was instituted known as the Lake Mahopac, Lake Kirk and Muscot river. This was instituted for the purpose of acquiring one hundred and fifty-five parcels of land in the Town of Carmel, Putnam County, for the Sanitary Protection of the Water Supply of the City of New York. Commissioners have been appointed on the first seventy-two parcels and are now engaged in hearing the evidence.

A proceeding was instituted under chapter 674 of the Laws of 1896 for the purpose of discontinuing all proceedings in relation to certain parcels that were conditioned under chapter 189 of the Laws of 1893, the Commissioners were appointed and are now engaged in hearing the evidence.

A map was filed on the 31st day of December, 1897, covering one hundred and fourteen parcels in the towns of North Castle and Bedford, Westchester County, for the same of that portion of the City's water supply known as Kensico Reservoir.

OFFICE OF THE SPECIAL COUNSEL IN CHARGE OF PROCEEDINGS RELATING TO THE WATER
SUPPLY—(Continued).

In relation to the other proceedings, I would respectfully report as follows :

The awards in Reservoir "M," Second Report, have been paid.

The proceedings in Patterson and Towners were closed and submitted to the Commissioners in the Fall of 1897 ; no report as yet having been made.

An examination of the records shows that on January 1, 1897, there were six hundred and sixteen claims in the water supply proceedings against the City of New York in process of examination and trial ; the total aggregate of such claims being \$6,710,731. This does not include some two hundred and fifty separate parcels acquired by the City for which no claims have been filed. These claims will aggregate, in my judgment, over \$1,000,000.

In addition to the foregoing proceedings the assessment and taxation of about eight thousand acres of the City's property is the subject of constant examination, contests and litigation.

This statement does not include actions against the City of New York in which I am acting as special counsel, relative to the waters of the Byram river in the State of Connecticut, nor various appeals pending in the Second Judicial District.

Yours, very respectfully,

H. T. DYKMAN.

QUARTERLY REPORT
OF
